## What's new at Nori's?

Hot breakfast items are now available in our deli. Swing by in the morning and pick up something warm on a cold morning.

We have loads of Bambeco recycled glassware now. Just in case you want to splurge and use up all those gift cards you got this year, we have these beautiful glasses for you.

As always, if you don't find what you're looking for, please ask! We are happy to revisit items that may have been discontinued or flavor options that we may have switched. This is your Village Market and we want to align you with the products you need and want!

Happy New Year...we hope that 2016 brings all good things to you and your families!

Thank you for your continued patronage. Last proved to be a big one for Nori's and we couldn't have done it without you!
